

MODEL UNITED NATIONS IS OUR PASSION.

In MUN, students work together to solve the world's biggest problems: war, poverty, climate change, discrimination, terrorism, cyber-security, and more.

MUN teaches students public speaking, debate, negotiation, critical thinking, problem solving, research, writing, teamwork, and leadership -- all valuable skills for college, career, and lifelong learning.

And MUN is fun! Students get to travel, make friends, and meet peers from across the globe.

At the MUN Institute, students learn all this and more.

Our students learn from MUN experts with 15+ years of experience and the Best Delegates in college MUN. They learn how to be the Best Delegate: by bringing out the best in other delegates.

After the MUN Institute, students start clubs, organize conferences, and win awards. Our students have won Best Delegate at Harvard, Yale, Georgetown, Berkeley, and more.

We started the MUN Institute because we know MUN changes lives. Personally, MUN gave us the skills and confidence we needed to get into Yale and UCLA, find our first jobs at Fortune 100 companies, and start a global education company.

We know that MUN has changed not only our lives, but the lives of our friends and our students. MUN prepares today's students to become tomorrow's leaders. And the students who do MUN today will change the world one day.

We invite you to attend the Model United Nations Institute. We hope to see you this summer!

Best,
Ryan Villanueva & Kevin Felix Chan
