

MODEL UNITED NATIONS IS OUR PASSION.

In MUN, students work together to solve the world's biggest problems: war, poverty, climate change, discrimination, terrorism, and more.

MUN teaches students public speaking, debate, negotiation, critical thinking, problem solving, research, writing, teamwork, and leadership -- **all valuable skills for college, career, and lifelong learning.**

And MUN is fun! Students get to travel to cities around the United States, make new friends, and meet peers from across the globe.

Our students learn from the MUN Mentors - the best and most inspiring leaders from the best college MUN teams in the United States.

After the MUN Institute, students start clubs, organize conferences, and win awards. **Our alumni have also gone on to attend prestigious colleges, including Harvard, Yale, Georgetown, and more.**

We started the MUN Institute because **we know MUN changes lives.** Personally, MUN gave us the skills and confidence we needed to get into Yale and UCLA, find our first jobs at Fortune 100 companies, and start a global education company.

We know that MUN has changed not only our lives, but the lives of our friends and our students. **MUN prepares today's students to become tomorrow's leaders.** And the students who do MUN today will change the world one day.

Thank you for sending your child to the Model United Nations Institute. We hope they had a great experience!

Best,
Ryan Villanueva & Kevin Felix Chan
Co-Founders of Best Delegate and the MUN Institute

2020 PROGRAM GUIDE

ENGLISH EXCHANGE PROGRAMS

Best Delegate has completely changed me. I know that **I've grown with confidence** and I will definitely take what I've learned back to Texas. I'll show everyone that Best Delegate changed me as a whole and **brought out the best in me.** Thank you Best Delegate, the **MUN Institute is something I will forever cherish and never forget!**

- Audrey, 16

MUN INSTITUTE ENGLISH EXCHANGE

The MUN Institute is truly global. Students will debate important global topics with their classmates, participate in engaging lessons about the United Nations, and enhance their English language abilities.

The outcome is that students are more confident in their public speaking and English skills! Students learn from the MUN Mentors, who are the best MUN delegates at the college level.

After classes each day, participants will meet other students from the United States and other countries and **expand their global cultural understanding.**

Students get daily feedback on their MUN skills, especially their public speaking skills. Our MUN Mentors guide students through MUN simulations, including our **end of program all-day final simulation.**

2020 MUN Institute English Exchange programs will take place in Cambridge, Massachusetts and Boston University from July 13th - 17th.

With groups of 20 or more students, we happily provide private programs located at prestigious American universities across the country, such as Georgetown University, Berkeley, or UCLA.

**Passion.
Professionalism.
Expertise.**

SIMULATIONS

Students simulation the United Nations and along the way, improve their public speaking, research, and English language skills!

EXPERTISE

Our staff consists of full-time professional Model UN Instructors, who have taught Model UN in over 20 countries.

FEEDBACK

Every student receives daily feedback from their peers and their MUN Mentor so they know exactly how to improve each day.

EXPERIENTIAL

At our interactive programs, students get to experience college life, enjoy city exploration, and learn fun elective lessons!
